----------	---------------------------------------

5.1.2 **Stand-alone Courses:** Courses which are not part of an approved certificate program, whether mission-related (200.6) or community interest (200.7), shall be approved by a college chief instructional officer designated by the technical college president, and reported to the college board of directors as an information item (i.e., not requiring approval) in the next regularly scheduled meeting after approval by the instructional officer. Documentation specified in 200.8 shall be retained on file by the college.

## 5.2 Program Certificates

5.2.1 **College Board of Directors Approval:** College programs and substantive changes to approved programs shall be approved by the college board of directors based on the requirements of 200.6. 5.2.2 **College Board Approval Documentation:** For programs and substantive changes approved by the technical college board of directors, documentation specified in 200.8 shall be forwarded to the USTC Commissioner for review and inclusion in USTC program inventories.

5.2.3 **USTC Commissioner Approval:** Technical college programs that are 900 hours or longer or are seeking federal financial aid eligibility, and substantive changes to these programs, which have been approved by the college board of directors shall be submitted to the USTC Commissioner for approval. If the Commissioner concurs that the proposal meets the agreed-upon USTC criteria established by the Board of Trustees as provided in 200.6, he or she shall approve the request within five working days. If the Commissioner does not concur that the proposal meets the agreed-upon criteria, the proposal shall be returned to the college with comments, and the technical college may resubmit the proposal once identified adjustments are made. For financial aid-eligible programs, final approval is delegated to the USTC Commissioner, and the programs may be implemented immediately upon USTC Commissioner approval.
